We are requiring permit for tank removal per communication from Scott and I some months ago.

>>> Valarie Wolf 09/17/03 04:46PM >>>

Bill Sesko was in this afternoon inquiring about the removal of an underground 6,000 gallon gas/diesel tank, which he said now only holds storm water. also 150' of 6 inch piping. He wants to know what permits are required.

He filled out an application and I told him that I would call him.

please let me know what procedure to take

thanks

v
